Title: **Refugees Emancipation**

Subtitle: Bringing Internet access to those who need it most.

Speaker: **Refugees Emancipation**

Short: *Improving the quality of life of Refugees in Germany by using the Internet as a tool to reduce their isolation, connecting them with each other, with their homelands, and with their local community.*

Long: Not withstanding the difficult legal and living conditions of refugees in Germany, they still succeed in initiating and putting into place practical projects to empower and emancipate themselves. Refugees Emancipation is a non-profit organisation founded by refugee for refugees. Our goal is to offer access to computers and the Internet. The project also conducts and maintains a website where refugee issues, advocacy information and personal stories can be published.
