Title: **Mexican Botnet Dirty Wars**

Subtitle: Bots are waging a dirty war in Mexican social media.

Speaker: **Erin Gallagher**

Short: Peabots have been active in Mexican networks since the 2012 presidential elections. Named after President Enrique Pea Nieto, armies of bots have become a political weapon to combat protests and attack critics of the Mexican government online. Bots are waging a dirty war in Mexican social media. They are weaponized censors that silence dissent and cover up crimes.
