Title: **Backdooring Git**

Subtitle:

Speaker: **John Menerick**

Short: *Join us for a fun-filled tour of source control management and services to talk about how to backdoor software. We will focus on one of the most popular, trendy SCM tools and related services out there Git. Nothing is sacred. Along the way, we will expose the risks and liabilities one is exposed to by faulty usage and deployments. When we are finished, you will be able to use the same tools and techniques to protect or backdoor popular open source projects or your hobby project.*
